The Great Conspiracy: The 9/11 News Special You Never Saw (Barrie Zwicker, Canada, Runtime: 75 min.)

Presented by: Skeptics' Inquiry For Truth (SIFT-Toronto)

In the past few months, *The Great Conspiracy (TGC)*, which premiered in New York City on September 9, 2004, has been shown in several major US and European cities. It has just been selected for screening in October at the "7 Islands Film Festival" in Mumbai, India. *TGC* is the top-rated video among the many now in circulation exposing the lies of 9/11. Comments the Editor of the leading website TvNewsLies: "Finally we have a journalist that is doing his job. Not surprisingly, he is from Canada! See this film and get as many people as you can to see it as well. **THIS IS AN ABSOLUTE MUST SEE FILM!**"

The Japanese Question 9/11 on its Anniversary

the World Première of the English-language version of: Seven Unanswered Questions About 9/11

(Takeshi [Beat] Kitano, Japan, Clip: 18 minutes)

Beat Kitano

IMAGINE THIS: A leading actor and director hosts a 90-minute special on one of the major TV networks blowing the official story about 9/11 out of the water. Well, it happened in Japan. Takeshi (Beat) Kitano assembles experts and original footage from crews he dispatched to Canada and the USA, counterpoised against Hollywoodized versions of the White House story, to amaze a lively mixed group in his studio. There are a few collective "Aaaaahs!" As Kitano says in the intro: "*This Should Not Be.*"

In the first 18-minutes of the English language version, see UWO Professor A.K. Dewdney take a Japanese film crew aloft in a Cessna loaded with cellphones and prove that none work above 8,000 feet. Remember all the cellphone calls allegedly made on September 11, 2001? It's investigative, it's entertaining and a program such as this has sorely been missing so far in North America. This should not be!

(This film is dubbed in English voiceover from the original Japanese).
